The Wireless Trends dashboard provides top level summary data .

VeraSMART Wireless Call Accounting (WCA) saves significant time and money for organizations that supply employees with cell phones, smart phones, aircards and other mobile devices.

- Easily import call detail records, usage, charges and plan data for company mobile devices
- Manage fixed and mobile communications in one single tool
- Automate wireless expense chargeback
- Immediately optimize your mobile expenses with the 20-point automated invoice analysis
- Compatible with major US & Canadian wireless carriers: AT&T, Sprint, T-Mobile, Verizon, US Cellular, and Telus Mobility
- Scales from <100 wireless devices to thousands of wireless devices

How is your organization using corporate cell phones and other mobile devices? Invoice analysis yields rich usage and spend data, but invoices can be long and complex, making manual processing painfully inefficient.

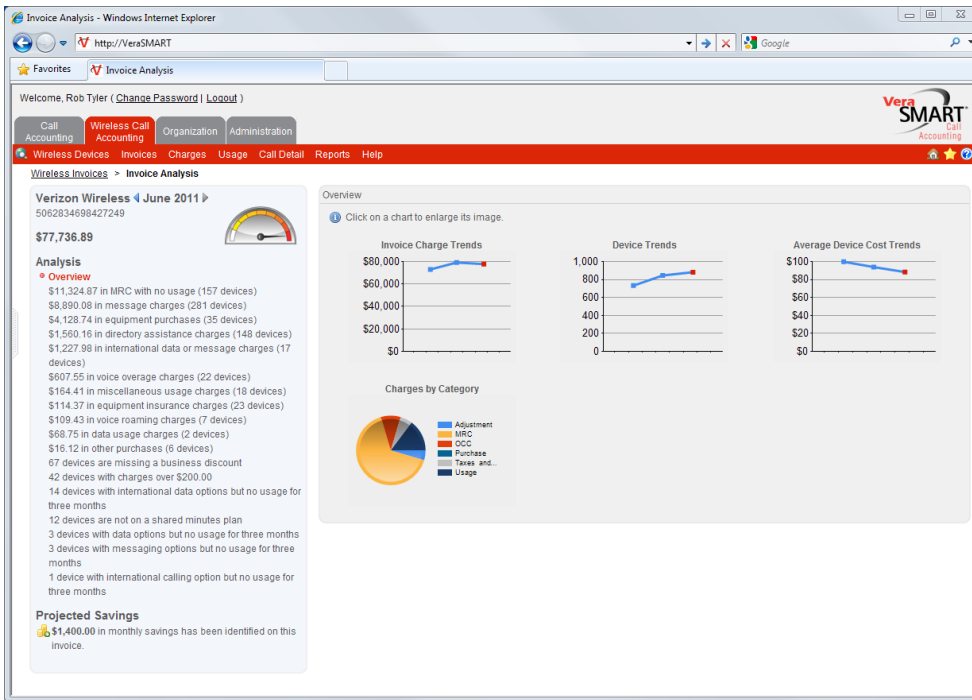

VeraSMART WCA cuts through the complexity and simplifies invoice analysis, chargeback, and reporting tasks. We've designed it to save you hours of work every month...because you have better things to do with your time.

Benefits of Wireless Call Accounting

Wireless savings analysis of every invoice

Eliminates the time spent manually reviewing wireless usage and device charges for potential savings and

with the Call Accounting Solution You'll Never Outgrow

VeraSMART provides a quick overview of each wireless invoice.

plan optimization. VeraSMART WCA automatically performs up to 20 checks on each wireless data import for savings opportunities and displays the results in a single, interactive console.

Wireless expense chargeback

Leverage VeraSMART's organization reporting structure and chargeback capabilities. Assign wireless devices to personnel so their monthly charges can be easily charged back to the appropriate cost center.

Configurable usage and exception reports

VeraSMART WCA includes reports to monitor specific types of calls, manage employee productivity, identify abuse and misuse. Reports reflect PBX and wireless activity, making it far easier

to answer questions about combined telecom usage and spend.

Configurable analytics

VeraSMART Wireless provides pre-defined, interactive, and configurable analytics for instant access to data such as longest calls, wireless invoice costs, and usage trends for voice, data, and texting, allowing users to drill down to the details with only one click.

Part of a complete call accounting solution

VeraSMART Wireless Call Accounting is easy to add to an existing VeraSMART Wireline Call Accounting installation, and it can also be used as a standalone application. Personal Call Identification is also available as an option.

VeraSMART Wireless Call Accounting Software

IN ADDITION TO VERASmart CALL ACCOUNTING, CALERO OFFERS A SUITE OF GLOBAL ENTERPRISE COMMUNICATIONS MANAGEMENT SOLUTIONS FOR EXPENSE MANAGEMENT, MOBILITY MANAGEMENT, TELECOMMUNICATIONS MANAGEMENT, AND USAGE MANAGEMENT.

Implementation Options

To help you obtain maximum value from your call accounting solution, Calero offers the choice of on-premise purchased software or a VeraSMART SaaS implementation. With either option, you maintain administrative control of your solution.

On-Premise Purchased Software

- Hardware and software purchased by user as capital expense
- On-premise location provides highest level of application control
- Highest level of control over internal systems and data

SaaS Implementation

- Software is an operational expense for user
- SaaS hardware/software are owned and maintained by provider
- Lower total cost of ownership - no upfront capital costs
- Provider performs software upgrades

Why Choose Calero?

- We invest in our people, so they can lead your project to a successful go-live.
- We invest in the way we deliver – our technical support and implementation teams consistently receive high praise from our customers about solving problems and simplifying reporting.
- We invest in our technology – VeraSMART – so you get real productivity improvement from an easy-to-learn, easy-to-use system.
