

Run the setup wizard and choose next.

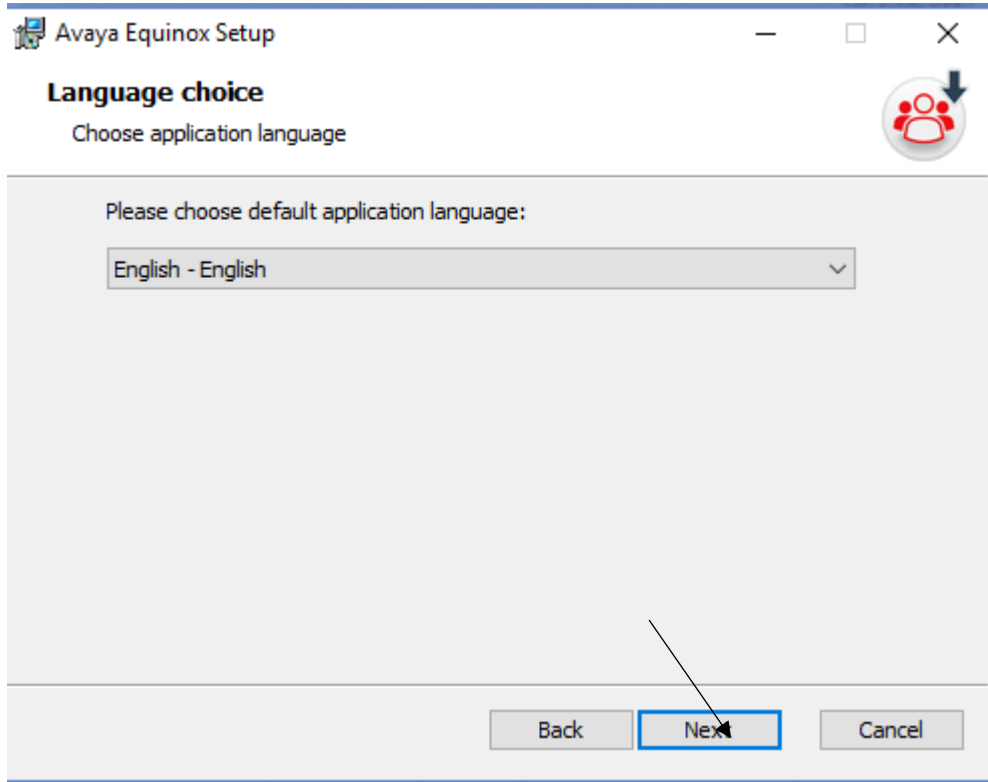

Accept the License Agreement and choose next.

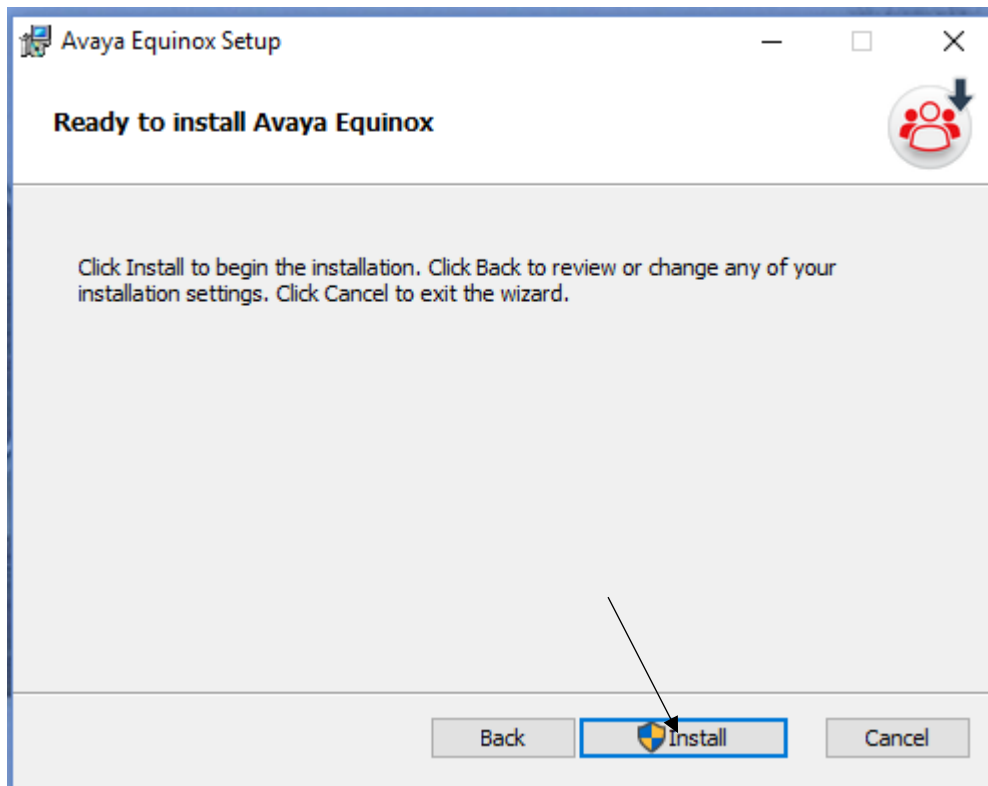

Choose next.

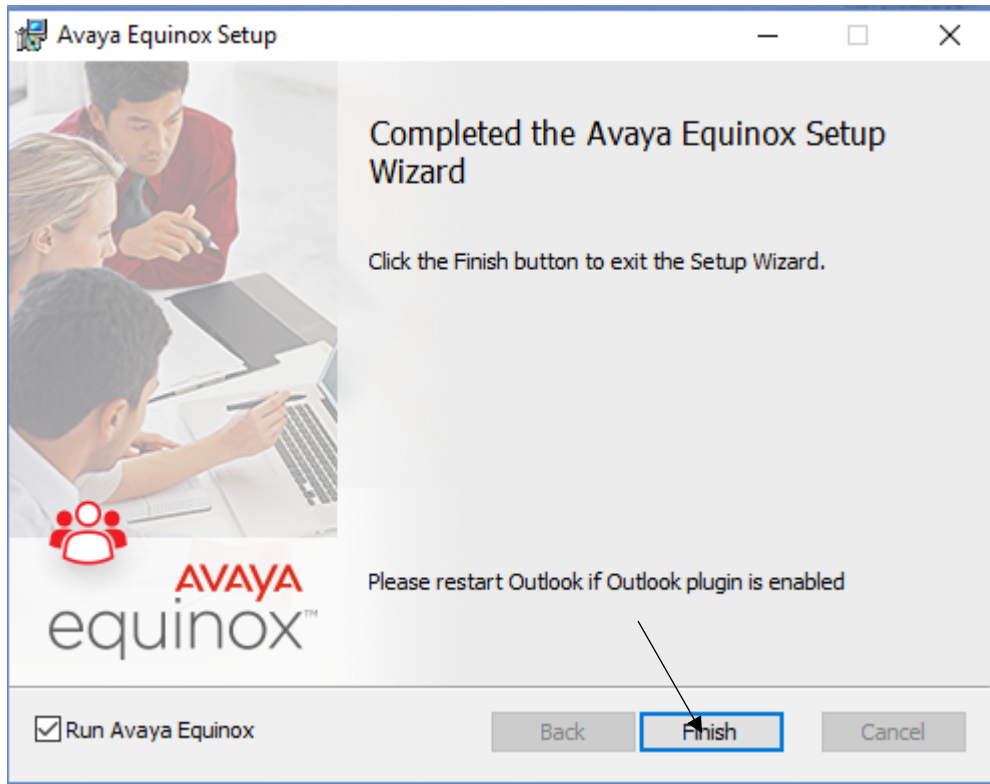

Choose next.

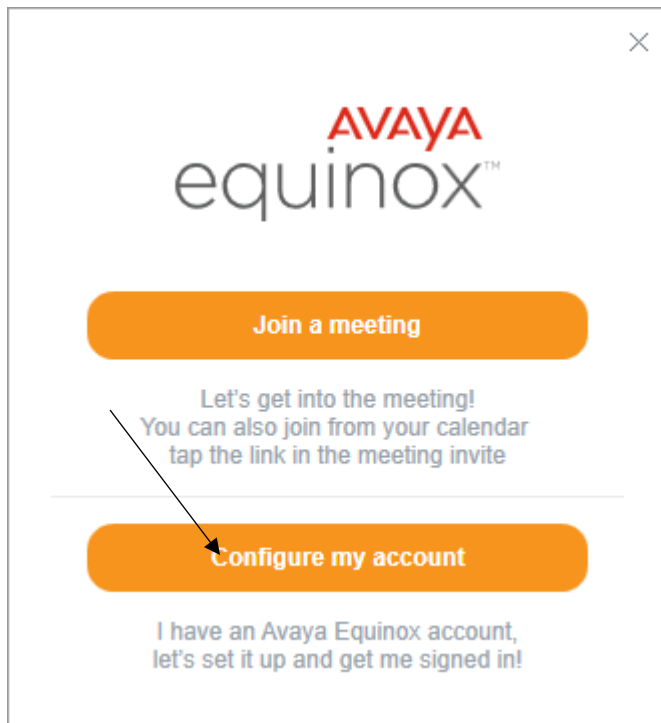

Choose next.

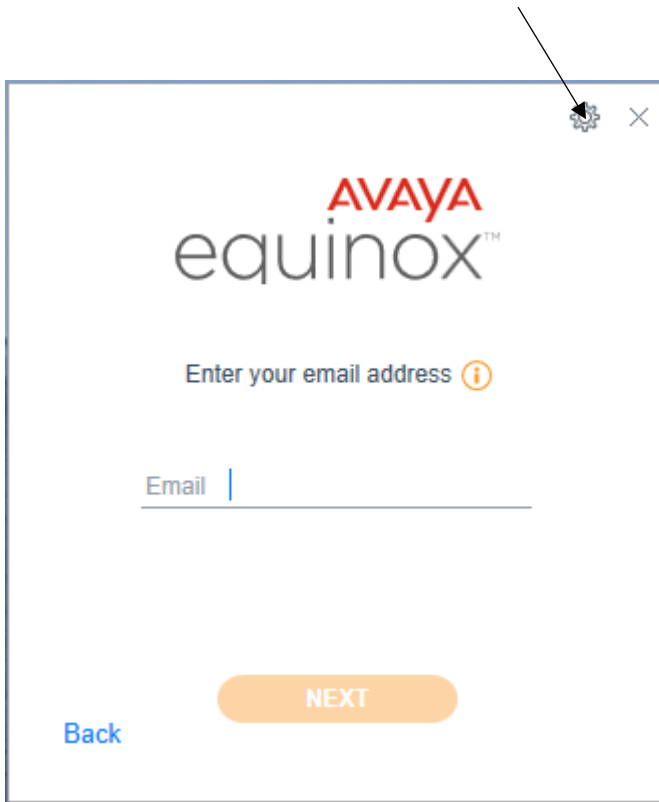

Choose install.

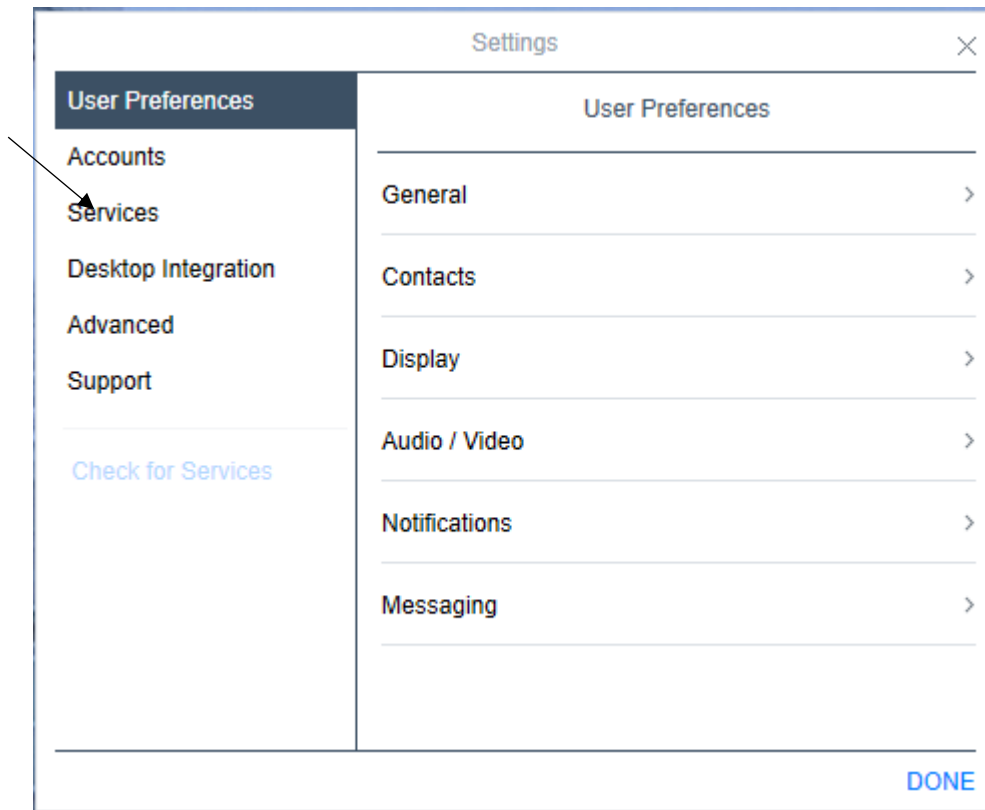

Choose Finish. The app will start up.

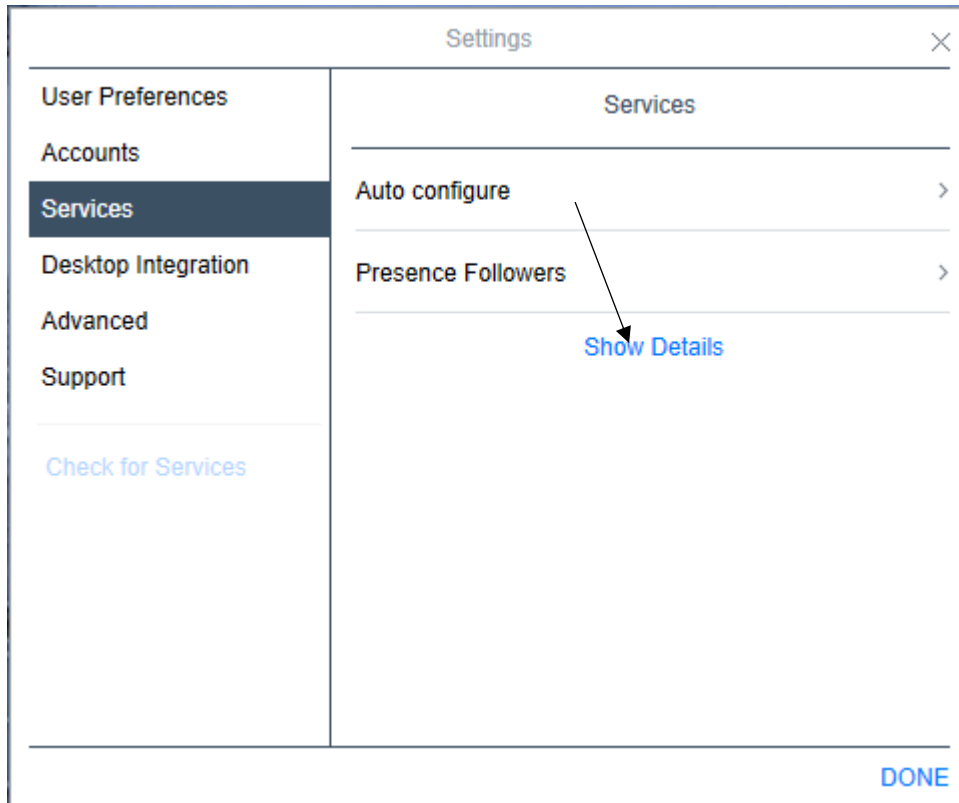

Choose Configure my account.

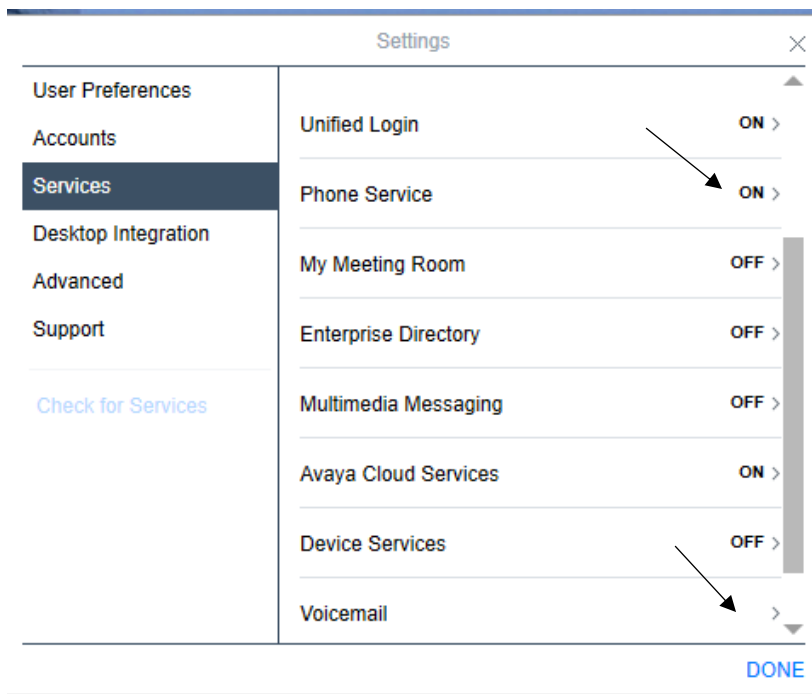

Click on the gear icon. Another window will pop up and there you choose manually Configure.

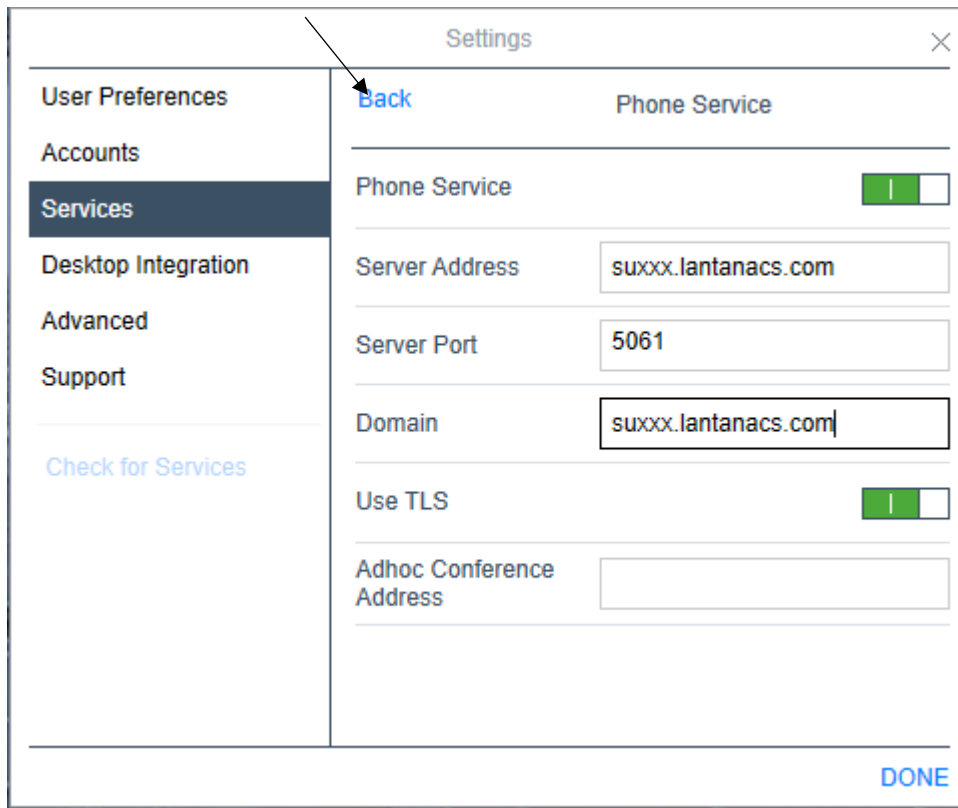

Choose Services.

Choose Show Details.

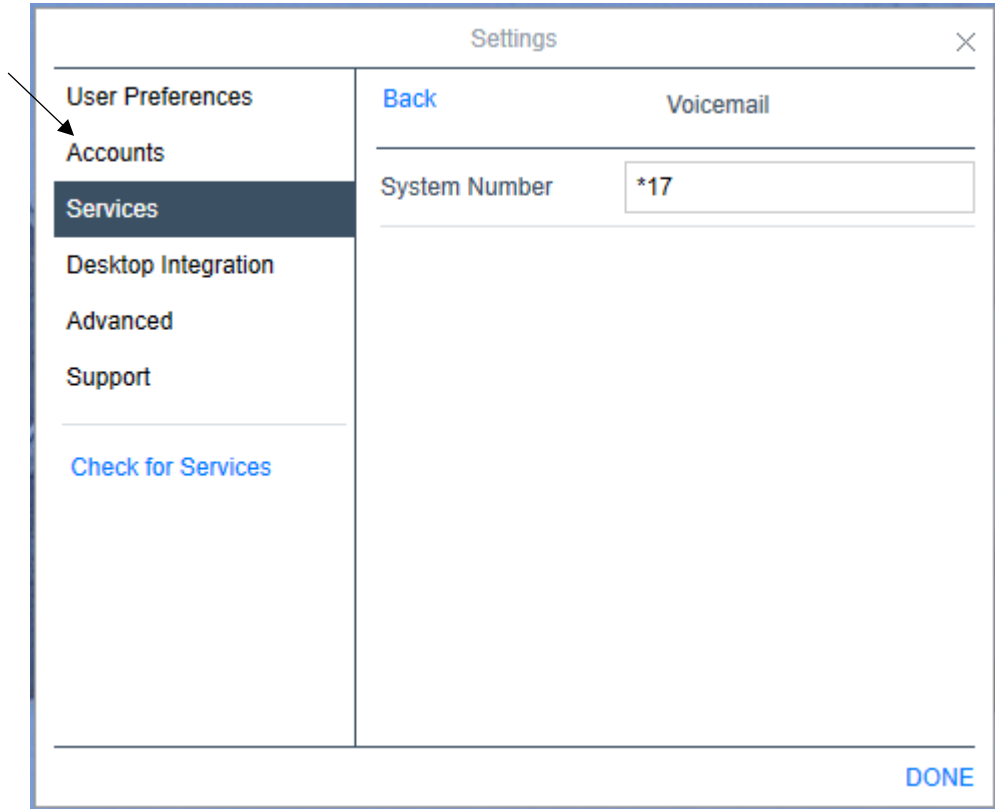

Here you will choose Phone Service. We will come back and choose Voicemail.

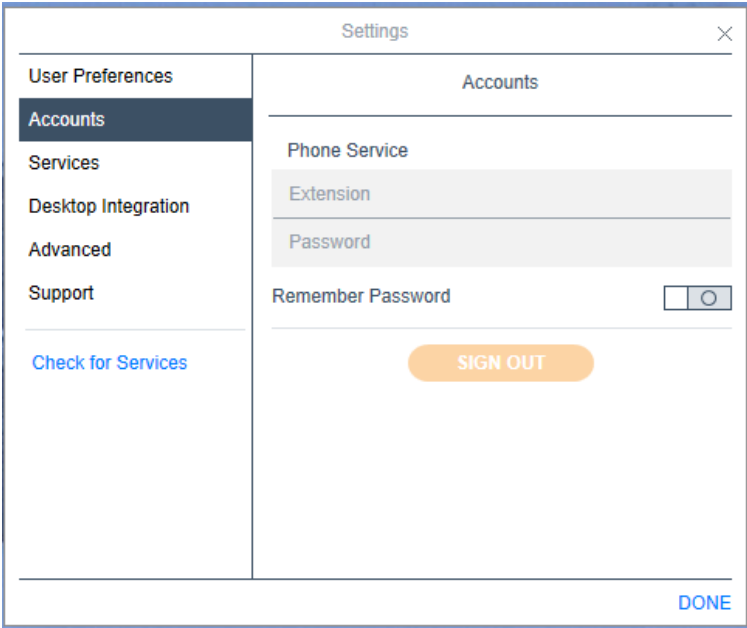

Enter your provided SU number under Server Address and Domain. Then hit back.

Here you will choose the voicemail tab shown in the previous slide. Enter *17 and then hit back again.

(Shown Below)

Choose Accounts.

Enter your extension number and then enter the Apps password you were provided.

Select Done.
